STAR BATTLE

Also called Two Not Touch. **Logic only, no guessing.**

★★★☆ HARD | 20 PUZZLES | 10 × 10 | ANSWERS AT THE BACK

HOW TO PLAY

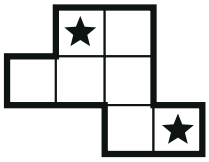

Four rules. That's the whole game.

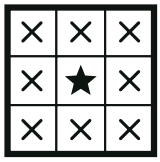

Two stars in every row.

Two stars in every column.

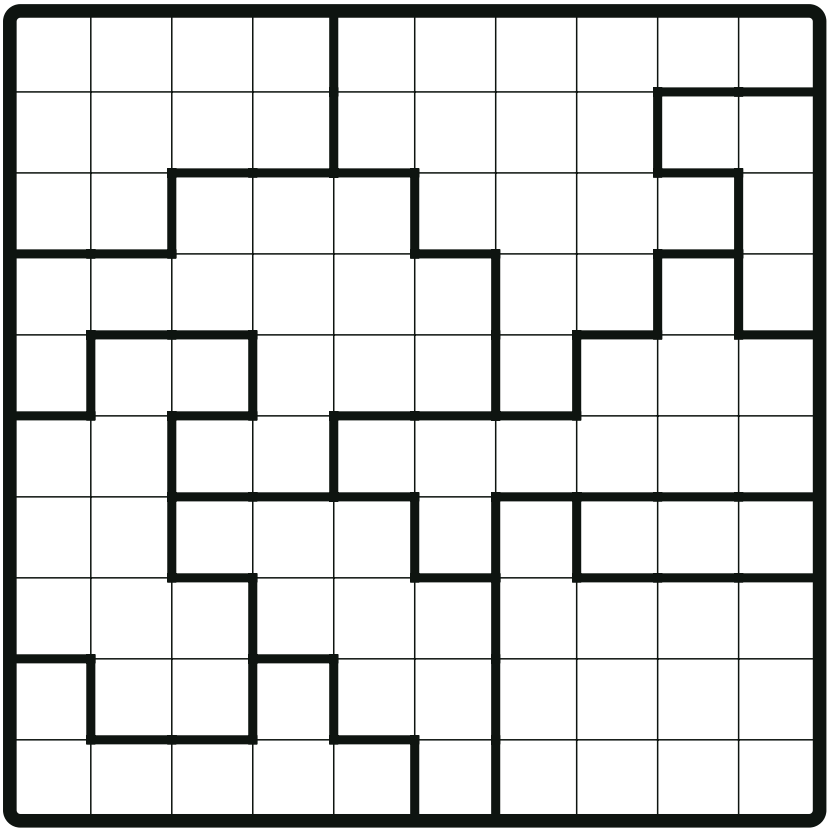

Two stars in every outlined region.

No touching, not even diagonally.

Free to print. Make as many copies as you like.

Two stars in every row, every column and every outlined region. Stars never touch, not even diagonally. Every board has one answer, and you never need to guess.

STRATEGIES

★ a star ✕ can't be a star

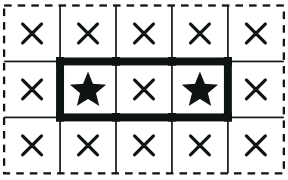

CROSS THE RING

Placed a star? Cross out all eight squares around it straight away. No other star can go there.

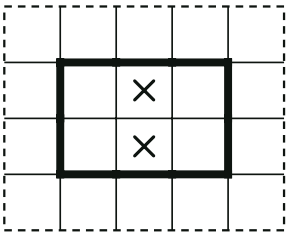

FULL MEANS FULL

Two stars in a row? That row is done: cross out every other square in it. The same goes for columns and regions.

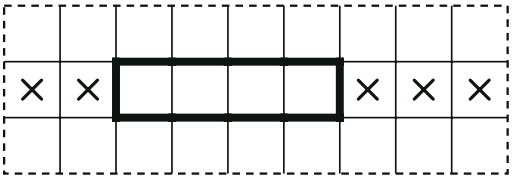

THREE IN A LINE

A region three squares long fits two stars only one way: both ends. Then cross the ring round each.

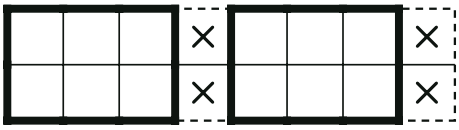

THE HOLLOW MIDDLE

A 2 × 3 region can never use its middle pair: a star there would touch every other square. Cross them out.

REGION IN ONE ROW

A region that fits in one row needs both of that row's stars. Cross out the rest of the row.

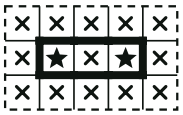

TWO REGIONS, TWO ROWS

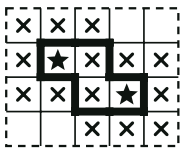

Two regions inside the same two rows use all four of those rows' stars. Cross out everything else in both rows.

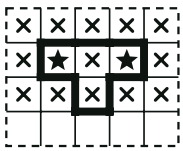

SHAPES

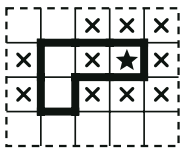

★ always a star ✕ never a star

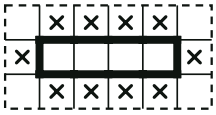

Find a region with one of these shapes and mark it straight away. A shape works the same turned or flipped.
